

Math Worksheet for 5th Grade

Subtracting decimals intro

Name: _____

Due Date: _____

Teacher: _____

Parent Sign: _____

1. Estimate by rounding to the nearest tenth: $7.48 - 3.29$
2. Estimate by rounding to the nearest tenth: $12.67 - 4.38$
3. Estimate by rounding to the nearest tenth: $5.04 - 2.89$
4. Estimate by rounding to the nearest tenth: $0.98 - 0.47$
5. Estimate by rounding to the nearest tenth: $3.16 - 1.09$
6. Estimate by rounding to the nearest tenth: $9.44 - 7.28$
7. Estimate by rounding to the nearest tenth: $15.25 - 6.74$
8. Estimate by rounding to the nearest tenth: $20.49 - 9.51$
9. Estimate by rounding to the nearest tenth: $4.99 - 1.02$
10. Estimate by rounding to the nearest tenth: $11.15 - 2.67$
11. Estimate by rounding to the nearest tenth: $6.05 - 3.55$
12. Estimate by rounding to the nearest tenth: $0.44 - 0.19$
13. Estimate by rounding to the nearest tenth: $27.36 - 13.49$
14. Estimate by rounding to the nearest tenth: $8.82 - 5.67$
15. Estimate by rounding to the nearest tenth: $14.99 - 7.01$
16. Estimate by rounding to the nearest whole number: $7.48 - 3.29$
17. Estimate by rounding to the nearest whole number: $12.67 - 4.38$
18. Estimate by rounding to the nearest whole number: $5.04 - 2.89$
19. Estimate by rounding to the nearest whole number: $0.98 - 0.47$
20. Estimate by rounding to the nearest whole number: $3.16 - 1.09$
21. Estimate by rounding to the nearest whole number: $9.44 - 7.28$
22. Estimate by rounding to the nearest whole number: $15.25 - 6.74$
23. Estimate by rounding to the nearest whole number: $20.49 - 9.51$
24. Estimate by rounding to the nearest whole number: $4.99 - 1.02$
25. Estimate by rounding to the nearest whole number: $11.15 - 2.67$
26. Estimate by rounding to the nearest whole number: $6.05 - 3.55$
27. Estimate by rounding to the nearest whole number: $0.44 - 0.19$
28. Estimate by rounding to the nearest whole number: $27.36 - 13.49$
29. Estimate by rounding to the nearest whole number: $8.82 - 5.67$
30. Estimate by rounding to the nearest whole number: $14.99 - 7.01$
31. Use front-end estimation (subtract whole-number parts, then estimate decimal parts): $23.78 - 9.56$
32. Use front-end estimation: $45.03 - 12.89$

Math Worksheet for 5th Grade

Subtracting decimals intro

33. Use front-end estimation: $6.95 - 2.47$
34. Use front-end estimation: $81.40 - 29.95$
35. Use front-end estimation: $37.62 - 18.24$
36. Use front-end estimation: $50.09 - 14.77$
37. Use front-end estimation: $9.99 - 3.02$
38. Use front-end estimation: $14.50 - 7.38$
39. Use front-end estimation: $100.25 - 45.88$
40. Use front-end estimation: $28.44 - 13.76$

Word problems (estimate as directed)

41. Sara had 2.87 meters of ribbon and used 1.49 meters. Estimate how much ribbon is left. (Round to the nearest tenth.)
42. A water tank held 12.63 liters. The family used 5.28 liters. Estimate the remaining water. (Round to the nearest whole liter.)
43. A baker started with 8.45 kg of flour and used 3.76 kg. Estimate how much flour remains. (Round to the nearest tenth.)
44. A movie is 2.12 hours long. A clip from it is 0.47 hours. Estimate how much longer the movie is than the clip. (Round to the nearest tenth.)
45. Liam ran 4.98 km on Monday and 3.21 km on Tuesday. Estimate how much farther he ran on Monday than Tuesday. (Round to the nearest tenth.)
46. A jar held 0.75 kg of jam. After using some, 0.28 kg remained. Estimate how much jam was used. (Round to the nearest tenth.)
47. The school fundraiser raised 125.49. *They spent* 47.86 on supplies. Estimate how much money is left. (Round to the nearest whole dollar.)
48. A plank is 6.34 meters long. A piece of 2.78 meters was cut off. Estimate the leftover length. (Round to the nearest tenth.)
49. A scientist measured 0.99 g of a sample and then removed 0.33 g. Estimate the amount left. (Round to the nearest tenth.)
50. The temperature dropped from 18.50 degC to 12.72 degC overnight. Estimate how much the temperature dropped. (Round to the nearest whole degree.)
